Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12-25 are rejected under 35 U.S.C. 102(b) as being anticipated by McCarthy et al. (US 5,846,245).

McCarthy et al. disclose an external bone fixation device including: first and second mounting members or flanges 350 having teeth 346, wherein the members could be adjusted to be substantially perpendicular to one another; a central member 380; first and second translation segments 340, 360 coupled to the central member for controlled translation along first and second translation axes that are substantially perpendicular to each other; and first and second pivot segments 384, 385 pivotably coupled to the central member (Figs. 4-6 and 15, col. 10, lines 31-67 and col. 11, lines 1-7).

Response to Arguments

Applicant's arguments submitted under "REMARKS" in the response filed on April 20, 2007 have been fully considered.

Applicant's arguments with respect to the rejections over McCarthy et al. are not persuasive.

McCarthy et al. clearly show a central member having a first flange at a first end and a second flange at a second end along a longitudinal axis of the central member wherein the flanges are substantially perpendicular (Figs. 4, 13 and 15).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
